A cross-sectional view of a segmented strip assembly 40. The assembly consists of a series of segments 42 connected by hinges 44. Each segment 42 includes a base layer 50, a middle layer 52, and a top layer 56. The hinges 44 are formed by a pair of overlapping layers 58 and 60. The top layer 56 is shown with a series of raised portions 100. The hinges 44 are shown with a series of raised portions 100. The assembly is shown in a partially folded state.
